*Making a Difference in the Lives of HIV/AIDS orphans in Africa, One by One*

---

### **A Time to Celebrate**

April 27, 2006 marks the second year anniversary of Graceworks Kenya Program. Currently, the program is actively serving over fifty children. During the past two years, these children who have lost one or both parents to the HIV/AIDS pandemic have been given the opportunity to attend school by being provided with school uniforms and supplies, to have access to needed medical care and to receive emergency food supplies, particularly during the recent drought that has hit the region. Our heartfelt thanks go to all the members of St. John's Lutheran Church, Orange California that have so generously supported the program since inception.

### **"Hope Kits" for Orphans**

The Giving Hope International/Graceworks Kenya Program is collecting the following items known as "Hope Kits" that will be delivered to the children in Kenya that have been orphaned or impacted by the HIV/AIDS pandemic. The children range in age from 4 to 14 years. Each kit will contain the following items:

- T-shirt (sm, med, lg)
- Baseball Cap
- Wash Cloth
- Toothbrush
- Bar of Soap
- Pack of Pencils, with sharpener
- Pack of Pens (black)
- Children's Bible or children's book

\*\*The items should be placed in a self sealing plastic (Ziplock) bag and labeled "Boy" or "Girl." The Items can be dropped at the church office or at Giving Hope International offices at address indicated above. The packages should be clearly marked to show that they are for the Graceworks Kenya Program. For more information, please contact : Susan Njemanze, Graceworks Kenya Program Director (714) 932-5425 cell or email: [snjemanze@adelphia.net](mailto:snjemanze@adelphia.net)
